A Farewell Reception.

On Thursday evening the Junior Order of American Mechanics and the daughters of Liberty gave a farewell reception in Mechanic's hall to Mr. and Mrs. John LaPorte. Including these societies and invited guests about ninety persons were present. In an appropriate speech Rev. Mr. Shaw, in behalf of many friends, presented to Mr. and Mrs. LaPorte an elegant silver service and some pieces of china, to which Mr. LaPorte responded with thanks for himself and wife and referred to their residence here the past 16 years and the attachments they had formed for the place and the people.

Rev. Mr. Clarke followed with a few remarks. Cake, coffee and ice-cream were served and a short musical program with several selections from Mr. Dickerman's phonograph made the evening pass very pleasantly until a late hour when Mr. and Mrs. LaPorte took the train for Providence, R. I. Mr. LaPorte came to this place from Hyde Park nearly sixteen years ago, in the employ of the late C. M. Chase as foreman on the Vermont Union and he has been identified with much of the life of the village. He has also been the prime mover in the "People's Lecture Course" the past two winters.

The Egg Question.

The problem of finding a cheap poultry food that will increase egg production during the winter when eggs are high has been solved by those farmers who purchase Green Cut Bone and Meat for their poultry.

C. S. Page of Hyde Park, Vt., grinds many thousands of pounds annually of this article and is this year selling it for \$3.50 per barrel of 200 pounds freight prepaid to buyer's railroad station. There is now no necessity for going without this staple poultry food. If you cannot use a barrel yourself, get some of your neighbors to join in with you. You will find it valuable as an egg producer.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Feeding Green Cut Bone Pays.

Mr. A. P. Hunter, who is one of the regular contributors to the New England Farmer, not long ago said in the columns of that paper: "Feeding fresh cut bone to fowls, to induce abundant laying, has proved a decidedly profitable thing. The bones are rich in animal matter, and contain lime of which the egg shells are made, and hens fed on fresh cut bone will lay a larger number of eggs than if fed no bone. Not only will they lay a larger number of eggs, but the eggs will be stronger-bodied, will be better eggs, and if incubated will have better and stronger chicks."

C. S. Page of Hyde Park, Vt., on receipt of \$3.50 will forward to anyone a 200 pound barrel of Green Cut Bone, prepaying railroad freights to any state in New England or New York.

PEACHAM.

The following school report was given at town meeting by Miss M. E. Dimond, superintendent of schools: "Eight schools have maintained each three terms of ten weeks. Only two have been able to retain the same teacher through the entire year. The North part was fortunate in having a trained teacher of experience for two terms, Penny street, one term. The pupils are about the same in number as a year ago, with a fair record for punctual attendance. Two schoolhouses have been thoroughly repaired. It has been a great advantage for the schools where the teacher has made her home in the neighborhood exerting an influence for good beyond the four walls of the school room. Last spring the children were much interested in searching for flowers, as they were coming into bloom, and this winter such birds as have braved the northern winter." She commended the school garden as it inspires in boys and girls an intelligent respect for the calling of farmer and tends to keep boys on the farm, a benefit to the home and the town. "One school has given special attention to penmanship and the teacher offered a prize for the greatest improvement during the term. So great was the gain that awarding the prize was not easy. There are," she says, "two vital problems of local interest. One is how can our teaching force be brought to the highest standard of excellence; the other is regard to transportation of pupils. Our schools with the exception perhaps of St. Johnsbury are costing more per pupil than other towns in the county and with only a few exceptions we are paying our teachers less. As a result no teacher grows old in our service. This seems to be a training school for our neighbors. We hire young girls without experience, and when they have proved their worth, adjoining towns will pay them more, and the teacher of experience gets about the same as beginners. To the teacher," she says, "greater efficiency is our only just ground for demanding more pay. The second problem, transportation, is hard to solve. It cost double in 1904 that of the previous year, and in 1905 double that of 1904. This was alarming, but this year the cost was a few dollars less than last year. What can be done to adjust this difficult matter in a still more satisfactory manner?"
